

ReliaSource™

ReliaSource Awarded ISO 9001:2015 Quality Certification

Baltimore, MD, December 12, 2018: Effective Friday, December 7, 2018, ReliaSource, Inc. was certified under ISO 9001:2015 standards by the [International Organization for Standardization \(ISO\)](#).

ISO 9001 is the international standard that specifies requirements for a quality management system (QMS). Organizations apply the standard to demonstrate their ability to consistently provide products and services that meet customer and regulatory requirements. It is the most popular standard in the ISO 9000 series and the only standard in the series to which organizations can certify.

ISO 9001 was first published in 1987 by the International Organization for Standardization (ISO), an international agency composed of the national standards bodies of more than 160 countries. The current version of ISO 9001 was released in September 2015.

“We are very excited to earn the ISO 9001:2015 certification, and believe it speaks to our process-oriented culture, and dedication to ‘*Continuous Improvement*’ here at ReliaSource.”, states Joe Zuramski, President. “We strive daily to exceed our customer’s expectations in all areas, and this certification speaks to that ongoing commitment.”

ReliaSource began the internal process of certification in September 2018, by comparing existing procedures against the new requirements. The process was

expedited by ReliaSource's innovative use of industry tools to drive process and continual improvement.
